

Why Kordy

-  Personalized hospital matching
-  Appointment & medical record coordination
-  Multilingual patient support
-  Guided care journey — inquiry to follow-up
-  Access to major hospitals & specialty centers

For many international patients, choosing the right hospital in Korea can be complex. Kordy helps simplify that process by guiding patients to appropriate institutions, treatment pathways, and next-step planning.

How Kordy Works

- 1 Initial inquiry** Share your goals, symptoms, or treatment interest.
- 2 Medical information review** We review available records and care needs.
- 3 Hospital matching** Appropriate hospitals or clinics are suggested.
- 4 Appointment planning** Scheduling, document support, and preparation.
- 5 Treatment in Korea** Guided access to your selected medical pathway.
- 6 Follow-up support** Post-visit communication and next-step guidance.

The final hospital and treatment pathway depend on individual medical needs and provider review.
